mand Emercia is seene in Chapman, in all and a continue and the prevance, in a command of the continue and the prevance, in a command and the first seene and the continue and t

as at once he put at general studies, and shere every lesson is one of practical innumerical. It takes a lifetime for a boy again to be. "prepared" to smier upon
seen studies in the High School. It is
fact that not over one child is 600 of
one who attend the public achools
or graduate at the High School; and
storet one in a hundred ever seeks adminion to that institution. It has bong
ore coased to be a prize sufficiently incing to keep boys and girls at the
soled system. Thus in 67-68 the atoldance in the fourth grade was 1,417;
if grade, 1,159; accord grade, 694;
it (exadidates for High School), 224;
tue a very homely phrase, the present,
tem produces "small potatese and very
to the hill." A class of 17,000 chilon citering every year to be educated
the public exponse, and 13,500 of these
vir g as account they can read and spell
g as account they can read and spell
only instruction. If at all, in other
sole, at their own expense, is a said
mentary upon the everue of study in
schools!

ools! supil who persiveres, after passing

Insy departs in arrested. For instance, he may be at the head of his class in Nos. 1, 2, 4, 5 and 6, and backward in No. 3, in which case he is kept back until in Me. 2, in which case he is kept back until in his geography he is equal to the required grade. It often happens that pepils are of equal to the required grade. It often happens that pepils are the crosson they cannot hear in these studies, though fully equal to the lest in all others. In such case they remain where they have been controlled in the best in all the others studies of the grade. It may so happen that for six membe they have been going over and over the geography lesson assigned to that grade, and the because they cannot keep up with others in the matter of irregular verte, or the cabe root, they are never permitted to leave that there are such divisions of the world as Eur pe, Asia or Africa-that arraserdinary information being only permissible to students of some tugber grade. To men and women, educated twenty years ago, who would go through a whole geography in air mentile, this absort restriction of a study by grades in an overehelening staureity. It is equally so in history, the history of the United States is the only one permitted in the Dustrie Schoolis, and that a permitted to be read only in parts. For instance, one coposal agrades of the school to be early in the first grade, and the child must go through ill the grades of the school to be called and the first grade and the child must go through ill the grades of the school to be called and the first grade and the child must go through it they grade of the school to be called and the first grade and the child must go through life for the charmant of the sead the whole book. A child may be lost its record in the history of the color of the sead the whole book. A child may be lost its record in the history of the color of the sead the whole book. A child may be lost the grades of the school to be called and the sead that a potential or the sead the whole book. A child may be lost the free list. That count was the only ration is practised the folly of pro-ailing if protection of Spanre, and the chief must go turough ardes of the school to be entitled he whole book. A chief may be rucked in the history of the coun-to the time of the Revolution, be compelled, day after day, and term, to go over the events in pices, and, if for any reason he lied to quit; school before reach-

e chapitets, and, it for any reason he ossipiled to quit school before reachthe higher grades, must remain forin ignorance of when the Revolucommerced, what battles were
the who were actors in the great
of Independence, and generally of
foundation of the Union. What
achools want to make them usean abandoment of the presperatory
